SUMMARY

Frontend-focused Software Engineer with 3+ years of experience delivering scalable React and Angular applications for US and European clients. Proven record of improving application performance by up to 40% through optimization, accessibility (WCAG 2.1), and modern frontend practices. Strong experience across frontend, backend (Node.js), and cloud-native environments, with a focus on high-quality, maintainable, and GDPR-compliant solutions.

TECHNICAL SKILLS

Frontend: React.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Redux, Next.js

Backend: Node.js, Express.js, RESTful APIs, Microservices, Java (basic), Groovy (basic)

Databases: MongoDB, Redis

Cloud & DevOps: Azure, CI/CD pipelines, Docker, AKS (basic)

Testing: Jest, Jasmine, Karma, JUnit

Tools & Practices: Git, Postman, VS Code, Agile/Scrum, SDLC, Accessibility (WCAG 2.1)

EXPERIENCE

Fullstack Software Engineer (Systems Engineer)

Apr 2023 – Dec 2024

Tata Consultancy Services

Pune, India

- Engineered high-performance frontend applications using React and Redux, implementing lazy loading and virtualization to reduce page load times by 25% and increase user engagement by 40%.
- Optimised Webpack bundle configurations to cut initial render time by 1.2 seconds, elevating Core Web Vitals and overall application performance.
- Led end-to-end software development lifecycle (SDLC) for key features, collaborating with two cross-functional engineers to deliver 100% of milestones ahead of schedule.
- Conducted 20+ comprehensive code reviews and introduced Jest snapshot testing, increasing test coverage from 60% to 85% and reducing production defects by 40%.
- Developed cloud-native Node.js microservices with Redis caching, reducing API response times by 35% and strengthening scalability of legacy Java and Groovy components.
- Collaborated with US-based stakeholders to implement WCAG 2.1 accessibility standards and deliver GDPR-compliant web solutions.

Associate Software Engineer

Nov 2020 - Mar 2023

Prolifics

Pune, India

- Authored and maintained 4+ responsive Angular and React applications using mobile-first principles, refining page performance and load efficiency by 30%.
- Revamped reusable UI components in Angular and React, strengthening code maintainability and reducing feature development time by 25%.
- Containerised Node.js microservices using Docker, minimising deployment failures by 40% and supported hybrid mobile development using React Native.
- Established CI/CD pipelines and achieved 85% unit test coverage using Jasmine and Karma, cutting production bugs by 35%.
- Implemented Next.js server-side rendering (SSR) in proof-of-concept projects, accelerating page load times by 1.8 seconds and enhancing SEO visibility.
- Mentored three junior developers through regular code reviews, improving pull request approval rates by 50%, and led accessibility audits for European client applications.

EDUCATION

University of Leicester

Msc.Cloud Computing.

UK

Expected Graduation: May 2026

Pune University

Bachelor of Engineering in Computer Engineering

India

Graduated: May 2020

PERSONAL PROJECTS

Go-to-shop | *MEAN stack*

Feb 2023

- Designed full-featured e-commerce site with JWT authentication.
- Added product catalogue, cart, and checkout functionality
- Technologies and Tools: Angular, Node.js, Express, MongoDB.
- Source code for NodeJS - [go-to-shop-node](#).
- Source code for Angular - [go-to-shop-angular](#).

My Portfolio | *MERN stack*

Aug 2024

- Created interactive portfolio with React and Node.js backend
- Integrated email functionality and responsive design
- Source code - [my-portfolio](#).
- Live: [My Portfolio](#)

MSLR - Voting Platform | *MERN stack + NextJs*

Jan 2026

- A voting platform with Next.js as router, jwt authentication and react + typescript as frontend.
- Source code - [mslr-next.js](#).
- Live: [MSLR](#)

AWARDS

On the Spot (Team) Award: Delivered a scalable post-login benefits system supporting 1 million users with zero production issues.

Special Achievement Award: Recognised for exceptional dedication and significant contributions to team and organisational goals.

PEP (Performance Excellence and Performance) Award: Awarded for consistent high-impact contributions.

CERTIFICATES

C++ Certification — NIIT.
